The B. & P. Bailroad Accident. CORONER'S INQUEST OVER THE BODIES OF THE

KILLED-NO BLAME ATTACHED TO THE OF-PICERS OR EMPLOYES OF THE ROAD. This morning the coroner, Dr. Patterson, held an inquest at Providence hospital over the bodies of the two colored men, Lewis Peyton and Nathan Thompson, who died on Wednesday night from the effects of injuries received by a collision of cars on the Baltimore and Potomac railroad, in the tunnel near the Washing-ton navy yard. The following jurors were sworn:—William H. Hamilton, Horatio Merryman, Frederick Fritz, James F. Dodley, Hen-Son Brown, F. X. Doeley, James Fay, J. W. Westfall, Alfred Lowry, A. Alexander, A. H. Parry and John G. Doeley.

Several of the employes of the company were

examined, and testified to the following effect : The train laden with ties (going north) had passed through the tunnel, and 4 of the 9 cars had broken loose and were left on the track. The engine and remainder of the train switched off and the gravel train (south) started as soon as the last car of the tie train passed out of the way and before it was discovered that the four cars had broken off. The watchman testified to having flagged the gravel train in and to then hearing the cries of those on the detached cars. "We've been left," &c., but before he could get a signal and go back the accident had occurred. It was also testified that there was a very dense volume of smoke in the tunnel, left by the engine of the tie train, which had just passed through, and it was impossible to see ahead, and that the gravel (south) train at the time was going very; slow. The engineer testified that in consequence of some of the brakes being on, and the grade being down, it was impossible to ascertain by the running of the train if any cars had broken loose, and that all the usual and necessary precautions were taken.

The jury found a verdict "that deceased died

of injuries received during a collision of trains on said road on the afternoon of the 13th inst., and that no blame can attach therefor to the officers or employes of the Baltimore and Po-tomac railroad company."

BUILDING ASSOCIATIONS .- The first annual meeting of the East Washington building association was held last night, and the report of the secretary was submitted, showing the total number of shares subscribed at 1,917; of which number 232 shares have been advanced upon, 55 withdrawn and 40 canceled, leaving 1,590 shares outstanding. The present value of each share is \$1278. The receipts from dues, advances, fines, and settlement of loans has been \$23,918, which has been invested in real estate and properly secured. The first year's transactions of ing associations are not expected to make much showing, but a permaneut basis has been laid in this case, and the stockholders are confident of success. The officers chosen last night are as follows:—James A. Tait, president; J. A. Staidy, vice president; George F. Gulick, treasurer, and R. B. Ferguson, secretary. The board of directors are:—J. P. Richardson. George R. Wilson, J. W. Westfall, J. S. Slater, W. F. Carey, William H. Barton and A. N. Meeker. The Merchants' and Mechanics' building as-

ciation held its second annual meeting at No. 905 F street, This was the 25th monthly meeting, and \$3500 was sold at an average premium of 41 per cent. The second annual report was presented by the secretary, Mr. J. T. Prather, showing receipts and disbursements, \$7,964.25 \$13,315 advanced on 649 shares of stock; aver age premium during the year, 4347% per cent.; number of shares subscribed, 3,333; now on rolls, 3,327; advanced on first year, 606; do. second year, 640; cancelled first year, 90; do. secend year, 358; now holding advances, 807; not advanced on, 2.520. Gross assets; \$133,283.19, net assets, \$72,675.62. Value of one share, \$28.83.55. At the last report the value of one share was \$12.97-62. The following board of officers was elected to serve for the ensuing year W. E. Brown, president; J. H. Bartlett, vice president; J. M. Duncanson, treasurer; J. T. Prather, secretary. At the annual meeting of Central building association, No. 2, last night, the secretary, Mr. W. W. Moore, submitted the first annual report. It shows receipts, \$54,167.90; disbursements, \$50,429.40; (\$49.506 was advanced on 434 shares.) leaving a balance of \$3,738.50, which, however, is drawing interest. The net assets are \$18,649.89. The stock account shows total number of shares subscribed, 4,300; withdrawn, 13; bought out and advanced on, 434-447; number remaining unsold, 3,853; present actual value of one share, \$12 (24. Resays it is proper to remark that the figures representing the assets of the association and the present value of its stock are based upon the means actually in hand. The nominal value of each share is \$200, less 35 per cent. If that portion of the assets which represents the 434 bought out should be computed upon this value, instead of upon the actual amount advanced on those shares, the total of that item of the assets would be increased to \$55,420, and the total as-sets to \$55,563, which sum, divided by the re-maining 3,853 shares, would give \$14.42 as the present value of each share. The 434 shares sold during the past year, estimated at \$200 each, amount to \$86,800. The premiums obtained on these sales amount in the aggregate to \$37,291, and the advances made thereon amount to \$49,06, as above stated, showing the average rate of premium to have been 43 per cent. The following officers were elected: Dr. A. J. Borland, president; John H. Bartlett, vice president; James Fraser, treasurer; Wm. W. Moore, secretary. Directors—J. C. Franzonf, Wm. R. Riley, Silas H. Moore, Charles P. Wannell Thomas B. Penicks, Edward C. Eckloff, James E. Turton, Charles W. Schell and Joseph P.

THE NEW JAIL—Contracts Awarded.—Mr. William D. Wise has been awarded the contract for the building of a wharf on the Eastern branch, in the rear of the Washington Asylum, for landing the material to be used in building the new jail. This wharf will be 30 feet wide and about 150 feet long, so as to reach the channel. It will consist of piles 12 inches in diameter, capping of 10 by 12 inches, and planking 3 inches thick. The prices to be paid are 12 cents per lineal foot of piles furnished. For driving one pile and placing the capping thereon, \$4.50; for additional labor in laying the planking, \$2 per square, or 100 square feet surface measure. Spikes and bolts, 8 cents per pound. Time of completion, 30 days. Mr. Cluss, the superintendent, has made a contract with Mr. Hodgson, the intendant of the workhouse, for doing the grading and excavation of the new jail building by the inmates of the workhouse at a price of 30 cents per cubic yard.

cents per cubic yard. THE ORCHESTRA of Theodore Thomas com mences an engagement at Lincoln Hall to-night, and as our public are well aware of their great merit as performers and of Mr. Thomas' ability as a conductor a full house will be the result. Already the reserved seats have been largely in demand, and those wishing seats should go early. The programme to-night is fine. On Monday night will be the next concert.

"GUILTY AS INDICTED." Ex-Policeman O'Brien Convicted of the Murder of Samuel Cunningham.

A NEW TRIAL ASKED FOR. Yesterday, after our report of the trial of ex-policeman Charles H. O'Brien in the Criminal Court for the murder of Samuel Cunningham at Green Spring, near Georgetown, on the 15th day of July last, closed, Mr. Harrington, for the government, concluded his argument, and the counsel for the defence offered several prayers for instructions, some of which were granted and some refused. CHARGE TO THE JURY.

Judge MacArthur, on charging the jury, said that it was not always required under a charge of murder that express malice be proven, for if this were so the majority of crimes would go unwhipt of justice, and hence the law has a provision of malice implied, and this implication proceeds from the nature of the act itself. The only other grade of homicide known in this Dis-trict is manslaughter. This grade of homicide is established, when a man in the heat of a conit, or under some sudden heat of passion, or under great provocation, kills another. The jury will consider whether this homicide occurred under the first or second grade. The provocation in manslaughter is, as a general thing, produced by blows. It is generally con-ceded by the writers on criminal law that mere words will not constitute a sufficient legal provocation in case of a homicide resulting there-from from murder to manslaughter. It would never do, if society were to countenance the taking of a life for mere words uttered, however aggravated they might be. It is certain from the testimony of the witnesses that some kind of a scuille took place between the prisoner and Cunning ham in front of the barroom of the pavilion. The jury would have to consider the lapse of time between this southe and the fatal encounter. One thing is certain, that the last meeting was entirely different from the former. In the former it is said that blows were struck, and after the lapse of tifteen minutes, he did not know of any law which would justify a verdict of manslaughter under such circumstances. Che of the witnesses for the detence had testified that Cunningham had threatened to take O'Brien's life, and that fact had been brought to O'Brien's knowledge. No man even in such a case has a right to go out of his way to meet his adversary. If he meets him accidentally or while pursuing his regular course of business he has a right to defend himself to the last extremity. He then cautioned the jury that they should consider carefully the facts, and give a verdict of murder or manslaughter under the instructions. The defendant excepted to certain portions of the charge.

The jury retired at 3.15 o'clock p. m., to deliberate on the verdict, and after waiting about an hour, Judge MacArthur directed the marshal to send for him if a verdict was agreed upon. The prisoner after taking leave of his wife was remanded to jail.

THE VERDICT. At 7.20 o'clock the jury came into court, and Judge MacArthur and the prisoner with his counsel having been sent for soon after arrived. The usual question "Have you agreed upon a verdict?" having been answered in the affirmative in answer to the question "How find you the pisoner at the bar?" the foreman replied "Guilty as indicted." The prisoner did not show any emotion. Mr. Williams, of the counsel, then asked that the jury be polled, which was done, and as the names were called each man distinctly answered

Mr. Williams made a motion for a new trial, which was entered, and the court adjourned. The irons were again placed on O'Brien, and he was taken to his cell in the jail.

THE CITIZENS' MEETING LAST EVENING-RESO-LUTIONS OF SYMPATRY ADOPTED AND A

RELIEF COMMITTEE APPOINTED. A number of prominent citizens of the District assembled at Legislative hall last evening in response to the call of the Governor, to take some suitable action for the relief of the sufferers by the recent Boston fire. Among those present were Messrs. A. R. Shepherd, E. L. Stanton, Adolf Cluss, Hailet Kilbourn, ex-Mayor James G. Betret, Joseph H. Adams, or three of whom have been tried for the crimes John H. Brooks, Dr. Tindall, and R. S. Davis. of which they stand charged?" * * * "There and spoke as follows: In the absence of the Governor, who is kept from here by sickness, it becomes my duty to call this meeting to order. Its purposes are sufficiently set forth in the call of the Governor. The city of Boston, the poor. the industrious poor of Boston, are in need of our sympathy and of our material aid. Their necessities should appeal to our hearts. About no other American city cluster so many ancient memories; no other city has contributed more to our material prosperity. Boston has been called the Athens of America. No less is she the Rome of America. If her culture and refinement are Grecian, she has always possessed and shown a Roman patriotism, fortitude, and endurance. She is dear to us for her revolutionary memories, and, since then, for her patriotic services every year and every day. Therefore I am sure the citizens of the capital of this nation need only appropriate measures of organization in order to make prompt and liberal offerings. As this is a meeting of citi zens, it is proper that it should be presided over a leading citizen. I move that Col. James Berret be invited to act as chairman, and Mr. Joseph H. Adams, a former citizen of Boston, as secretary.

The motion was adopted and the officers chosen. Mr. Berret, on taking the chair, said that the occasion that brought them together had been so eloquently and concisely stated by the secretary. In whose sentiments he most cordially concurred, that further remarks were un necessary on his part, and he was ready to

Mr. A. R. Shepherd then offered resolutions, which were unanimously adopted, "That the citizens of the District of Columbia deeply sympathize with the people of Boston in the calamity which has fallen upon that city; that a committee of seven be appointed by the chair-man of this meeting, to be known as the Boston executive committee, whose duty it shall be to solicit and collect contributions from the citizens of the district, and transmit the same to the au thorities of Boston, as the offering of the Dis-trict of Columbia in alleviation of the suffering wrought by the recent disaster."

The chair appointed as the committee, Messrs. T. L. Hume, C. H. Cragin, M. W. Galt, J. M. Brodhead, W. C. Bestor, J. W. Thompson and

Mr. R. S. Davis offered a resolution that a committee of three be appointed by the chair, to proceed to Boston and confer with the auhorities and ascertain the exact condition of affairs; and that said committee report to the Governor of this District immediately on their return for his further action in the premises. Mr. Hallet Kilbourn thought the adoption of the resolution was unnecessary, and moved to iay it on the table; adopted. The meeting then adjourned.

ARRESTS FOR ALLEGED CRUELTY TO ANI-MALS-Working Sick Horses-Tying Cords around Calves' Javes, &c.-On Wednesday, President Gatchel, of the S. F. T. P. O. C. S. A., turbed three horses out of harness because of weakness occasioned by the present epidemic. He also arrested a man named Jay, on 9th street, near New York avenue, for whipping oxen. At Drovers' Rest yesterday, where there has been, perhaps, more crueity to animals practiced by drovers and their employes than at any place in the District, Mr. Gatchel, with the assistance of Officer Dangler, succeeded in making a good impression. Two weeks ago, Mr. Gatchel arrested two men there for brutally which provinced two men there for brutally which provinced to the control of ed two men there for brutally whipping animals and started with them to Georgetown, and while on their way Mr. G. stopped to light a cigar, when his prisoners left him, but have not been seen at Drovers' Rest since. Yesterday, at the request of Mr. Gatchel, Officer Dangler arrested there a man by the name of Ricard, for tying a cord around a calf's jaws to prevent its sucking milk from its dam. Numerous friends of the accused interceded for his release on account of his ignorance of the law, and he was allowed to depart on a promise to do so no more. A man by the name of Jay and two boys were afterwards arrested for cruelly treating animals that were being driven on the scales. They were also released. Thomas Bush was arrested by Mr. Gatchell yesterday evening, for whip-ping an animal that appeared to be very weak from the effects of epizootic. The accused be-came very troublesome, when Officer Guy came to Mr. Gatchell's assistance and escorted the prisoner to the office of Justice Anderson, who prisoner to the office of Justice Anderson, who imposed a fine of \$5 and costs. Later in the evening Mr. Gatchell arrested Wm. Wilson for working a horse that was, apparently, hardly able to stand. Justice Anderson fined Wilson \$3 and casts. This morning Mr. Gatchell turned a horse out of harness on 12th street, Island, because of the epizootic.

IMPORTANT DECISION ON A SUIT TO RECOVER THE AMOUNT OF A PROMISSORY NOTE.—In the Circuit Court, yesterday, the case of Armstrong vs. McDonald was decided. This was an action on a promissory note, made by McDonald and endorsed by one Scott, for \$1,250. The note was given as part of the purchase money of a patent awning. On hehalf of the defendant it was claimed that one Kenton, acting as agent for Armstrong, represented to McDonald that this awning was a valuable invention; that in the city of New York they had sold 3,000 awnings at a net profit of \$15 each; that upon such and other representations McDonald purchased the right of said awning for the District of Columbia and the state of Maryland, paying therefor \$1,000 cach, and giving a note for \$1,250. The line of defence was that McDonald was induced to purchase the awning through false and fraudulent representations of the agent, and that it appeared in proof that no sales had been made in New York. The jury found for defendant. Hine and McConnell for defence. THE AMOUNT OF A PROMISSORY NOTE. In the

THE THEATERS.—Mr. Joseph Proctor will have a benefit at the National Theater this evening, on which occasion he will appear in the drama "Nick of the Woods," in which he created such a sensation last night; also, in the play of "O'Neil, the Irish Kebel." Such a double bill ought to draw.

There will be a grand performance to-night at the Theater Comique, for the benefit of the sufferers by the Boston fire, and all the start of the week will exert themselves to make it the best entertainment offered the patrons of the house this season.

A Maguificent Business Establishment and an Enterprising rirm. The New Store of Green & Williams.

The recent opening of the magnificent new furniture store of Messrs. Green & Williams, corner of 7th and D streets, calls for a notice supplemental to the one which appeared in The STAR a few weeks since relative to that establishment. The building is now completed and the various departments open for business. The new edifice, which is an ortament to 7th street and a credit to the city, fronts twenty feet six inches on 7th street, and is one hundred and five feet deep. The architect was Mr. John C. Harkness, the contractor and builder Mr. Sam'l Wise, the bricklayer Mr. Augustus Davis, the painters Messrs. Callahan & Spalding, and the plumber and gas fitter Mr. Henry Clay Cruit. Every division of the work was thoroughly and artistically done, and consequently the result is eminently satisfactory to the proprietors.

is four stories above the ground, and is sur-mounted by a handsome French roof. The two immense bay windows at the main entrance on 7th street are said to be the largest in the city, and the costly and luxurious articles of furniture displayed in them are unfailing objects of interest to the passers-by. The basement of the new building is devoted to the exhibition of carpets and oilcloths of every description. One might suppose that this floor would lack for light, but such is not the case. The room is extended 17 feet under the pavement, making its dimensions 105x37 feet, and over this exten sion are placed Case's patent lights. The result is that this room is almost as well lighted as any room in the building.

THE DIFFERENT DEPARTMENTS. The first floor is filled with walnut chamber suits, ranging in cost from \$200 to \$900 per set: also book-cases, secretaries, and desks, ranging from \$40 to \$250 each. In the large bay window above referred to are exhibited a parlor suit, upholstered in eatin, price \$600; a sideboard, price \$250; easy and reception chairs, ranging in price from \$20 to \$50, and a number of smaller articles in the way of ornamental furniture. In the rear are suspended heavy lace curtains, which give to the windows the air of elegance and finish of a princes' boudoir.

The second floor is furnished with parlor suits upholstered in cottelins, silk damask, plush velvet, and in reps, and range in price from \$150 to \$600 per suit. The third floor contains walnut chamber sets,

ranging in price from \$75 to \$250. The fourth floor is filled with cottage sets, hat-trees, etan-

giers, &c.

SUPERIOR WARES AND LOW PRICES. Probably there is not a single article of fur-niture, useful or ornamental, that cannot be found in Green & Williams' establishment, and at prices as low as the lowest in any city of the United States. As the firm do an immense business, they can afford to sell at a slight ad. vance on cost. At any rate, they are deter mined to offer the citizens of the District such inducements in the way of bargains that there will hereafter be nothing to gain in going outside of Washington to make purchases, at least in the line of furniture. We bespeak for this wide-awake firm a patronage commensurate with the commendable enterprise they exhibit in advancing the business interests of the cap-

The Metropolitan Police.

ANNUAL REPORT OF THE BOARD OF COMMIS-SIONERS. Monday the board of metropolitan police transmitted their report for the year ending Sep-tember 30th to the Secretary of the Interior.

The report says:
"While no serious popular disturbances or
formidable riotous demonstrations have occurred within the District during the past year, yet felonious hemicides and violent assaults upon the person have been more frequent than during any similar period since the close of the late war. Noticeably common have resistance to and assaults upon police officers in the discharge of their official duties become within the past few months." * * "May not the cause be traced, in a certain extent at least, to the fact that there are now in our jail some ten or eleven persons accused of murder, only two ubt that punishment following quickly and surely upon the commission of crime exerts a restraining and salutary influence upon persons disposed to commit crime." THE NECESSITY OF NEW STATION HOUSE in the first, second, fifth, sixth, and seventh

precincts is referred to. INCREASE OF THE FORCE NECESSARY. The board again urge the necessity of an increase of the force, as with the present number a single man is required to guard and patrol from ten to eighty squares or blocks, an area it is utterly impossible for him to adequately protect. To guard the extensive improvements in the public reservations are single processes. the public reservations, when completed, will be an additional duty imposed upon the force. as during the past year quite a number of complaints have been made of acts of lawlessness i public squares, which would seem to require the constant attendance of an officer both day and night. They recommend that the increase b not less than fifty privates and twelve sergeants, which would bring the force up to a standard of three hundred, including officers and men. THE ILLICIT LIQUOR TRADE.

They urge again summary and stringent laws for the punishment of persons engaged in the illicit sale of intoxicating liquors. A summary of the work of the department is

SANITARY. Lieut. Noonan, of the sanitary company, submits some suggestions. He attributes the pres-ence and spread of small-pox in a great measure to the fifthy and over crowded condition of the tenement houses occupied by some of the soorer classes. Maiarial diseases have also been prevailing to a considerable extent, owing, in a measure, to the numerous excavations necessary for the work of improvements. He refers to the numerous complaints of neglect lodged against garbage gatherers and scavengers, with the remark that "this state of things demonstrates the necessity for the enactment, by our legislature of a new code of sanitary laws, and of again organizing the sanitary company attached to this department." His report concludes by recommending the establishment of an inebriate institute.

THE MOST FOR ONE'S MONRY.—Now that the sharp frosts and keen winds of early winter are upon us, the procurement of thicker clothing is not only a matter of comfort, but a question of health; and of course nearly every one is anxious to know where a given sum will go the farthest in this direction. To all such we say call on Straus, the clothler, and see what inducements he can offer in that line. His stock is large and varied, and he guaranties his prices to be at least as low as the lowest for the same quality. Buying of the largest dealers, before the late advance in prices, and for cash exclusively, it stands to reason that he cannot be surpassed by any one in the trade. At any rate, give him a call and see what he can do. THE MOST POR ORB'S MONRY .- Now that the

Washington's Invalid Horses. THE SICK HORSES SLOWLY IMPROVING -SEVE-RAL CASES OF DROPSY-ONE DEATH PROM THAT CAUSE-DEATHS SINCE YESTERDAY

The bad weather of the past few days ha considerably delayed the recovery of horses afflicted with the epidemic, although most of them are slowly improving. Some of the large stables have no bad case, but the majority of them have one or more animals in a critical condition. Among those are four or

WELL-DEFINED CASES OF HORSE DROPSY. There is one of these in Pumphrey's stables, or C street, between 4% and 6th streets. A valuable horse belonging to Mr. Kelleher, who keeps a livery stable on 8th street, near E, died this morning of dropsy. The horse had been but slightly affected by the epidemic, and on Mon-day and Tuesday was in service. On Wednesday last its legs began to swell, and vesterday its flanks and body commenced swelling. Its death was no doubt attributable to the fact that t was worked in the rain and caught a fresh

cold, which ended in dropsy.

A few street cars were running to-day on the Avenue and 7th-street routes. The horses of the Columbia railroad will not be put to work under ten days, as President McKelden believes it unadvisable to use them until they are entirely

District Improvements.

ACTION OF THE BOARD OF PUBLIC WORKS. A contract has been made with Chas. H. Lake to park and inclose with a wire fence the south side of K street north, between North Capitol street and the water-course, and reduce the foot pavement from 15 to 12 feet in width, sloping the same towards the boundary line. Permission was granted to C. C. Willard to erect an ornamental lamp-post at the corner of 14th and F streets northwest. Permission was granted Hon. Joseph Holt to place stone steps in the terrace in front of his premises to conform to those at his front door.

Te-DAY.

The superintendent of streets has been directed to remove the pump and fill up well on H street, between north Capitol and 1st streets west, and the water registrar to erect an iron hydrant in its place. O. W. Cooke was informed that as soon as the curb is set street lamps will be erected on 2d street east, from C to A streets north; also, on Maryland avenue northeast, from 1st to 2d streets east.

Fine Plated, oroide, jet, French-gilt, and Alaska diamond jewelry, in elegant designs, received at Prigg's jewelry store, No. 457 Pennsylvania avenue, between 4% and 6th streets.

THE COURTS.

POLICE COURT. Judge Snell.—Fanny Kelly, middle-aged white woman, charged with stealing 300 pounds of horse shoes, worth \$7.50 The testimony was conclusive as to the theft, and the court ordered the property, or the value of it, restored to the owner and a fine of \$15 imposed. Elizabeth Davis, assault and battery on Celia Crane; continued. George Walker, as-sault and battery on James Story; \$10 and costs. Thomas Giddings, assault and battery on Margaret Murdock; \$5. Mary Loring, profanity 33. Perry Eliason and Samuel Hyer forfeited \$5 each collateral for profanity. Robert Ernest, loud and boisterous; \$5. James Story, cursing; \$10. Jenny Brown, a Buzzard Point ranger was fined \$3 for cursing.

TO-DAY. Elizabeth Bowman, charged with profane and indecent language; forfeited collateral. Jeremiah Sullivan, same charge; \$5. Phillip Hyde. same charge; forfeited collateral. Frank John son, profanity; \$3. Thomas Norfolk, loud and poisterous language on Water street; \$5. Sam'i Johnson, same offense; \$3. Martha Jones, profanity; \$3. David Johnson, same; \$3. Martin Dougherty, loud and boisterous John E. Talty, keeper of a restaurant, charged with keeping open on Sunday; \$20. An appeal was noted and bonds fixed at \$100. James Kelleher, a stable keeper, was charged with assault and battery on a hack passenger, who testified that last night, on returning home from a wed-ding party, he directed the driver to take him home, which he declined to do, but took him to the stable of Mr. Kelleher, on 8th street, instead, and that the father of the driver, after some words had passed as to the conduct of the driver, caught hold of the passenger, tearing his coat, and ejected him by force in a very offensive manner. Defense was that the duties required by complainant were in excess of the contract, and that the horses were sick. Kelleher was fined \$10 and costs. An appeal was taken and bonds given. CONDUCTORS HAVE A RIGHT TO ENPORCE GOOD

ORDER AND PROPRIETY ON THE STREET CARS. Joseph T. Carberry was charged with assault and battery on John D. Buckley on the 14th instant, on 15th street. Mr. Carberry is a street car conductor, and it was testified to by severa witnesses that on Tuesday afterboon last Mr Buckley got on the car of accused in an intoxi cated state, and was ejected by the latter; that Buckley attempted to get on the car again, and was struck by the conductor several times in the face while holding od to the railing, and forced to release his grasp; that this was repeat ed the second and third times; the last time com plainant was dragged some hundred yards, during which time accused was striking his hands and endeavoring to force him off. Some of the witnesses who saw the transaction testified to this effect for the prosecution, and that the force used was not in their opinion justified by the circumstances as there were persons standing about ready to aid the con-ductor in taking the complainant off. On the part of the defence witnesses testified that complainant got into the car in an intoxicated state and made himself so obnoxious to the passen gers, some of whom were ladies, that they requested the conductor to eject him; that the latter remonstrated in a gentle manner with him, and asked him to leave the car; that Buckley refused saving he had paid his fare and intended to ride; that the conpaid his fare and intended to ride; that the conductor offered to return his fare, which Buckley accepted, and then refused to leave, using improper language, when the accused took hold of him and ejected him; that Buckley being very much enraged, made several attempts to regain his place in the car, evidently with the purpose of assalling the conductor, but was kept off by the latter, during which resistance the conduc-tor struck him several times. Other passengers testified that in their opinion the conductor was justified in doing what he did, and that no more force was used than necessary. The judge stated that his first impressioms were that the conductor was inhuman, but the testimony for the de fence had somewhat modified his views. It did not appear that any more force had been use than the circumstances of the case required, and

THE EPIZOOTIC .- The horse disease does not seem to be abating here except among the mules, which it does not seem to affect as much as the horses. Reports from the surrounding country say that the horses are recovering, and with good weather they hope soon to be able to use them as usual.

PRESENTERIAN CHURCH .- The congregation of the Bridge-street Presbyterian Church will hereafter worship in their chapel, on West street. The old church on Bridge street is for sale-see advertisement.

THE BREAK IN THE WATER MAIN.-It will be several days yet before the repairs of the broken water main will be completed, during which time the cars will be stopped on the Washington side of Rock creek, unless the street railroad company should develop enough enterprise to bridge the muddy chasm, which would cost only a few dollars.

GRAIN TRADE.—There were no receipts to-day. Several boats are due by Chesapeake and Ohio canal, but are detained by the horse epidemic. The sales to-day were 1.500 bushels prime red wheat at \$1.85, 1,800 bushels do. at \$1.82%, and 4,000 bushels corn at 59c. ARBIVED.—Schooner Pearson, from New York, with 600 bales hay to J. G. Waters; stmr. Express, from Baltimore, with an assorted

cargo for District merchants; canal boat Round

Top, No. 2, with 800 barrels cement to George

COAL TRADE .- The receipts for the past week have been light on account of the prevalence of the horse disease all along the entire line of the capal. Only 28 boats cleared from Cumberland yesterday, and many of the boatmen are tying up until their stock recovers from the epidemic The arrivals reported at the collector's office for the past week were 140, about one-third less than usual. The collector estimates the falking off of canal trade to be about 33 per cent. The coal companies here report the tollowing receipts and shipments for the past week: Borden mining company received 1,540 tons and shipped 1.656; Agnew's docks received 400 tons and

received 3,491 tons and shipped 4,885 tons.

shipped 900 tons; Ray's docks received 3,960 tons

ORDINATION .- Pursuant to a call made by the Alfred street colored Baptist Church, an ecclesiastical council, convened there this morning to take into consideration the propriety of ordaining Harvey Johnson to the work of the gospel ministry. After the usual examination of the candidate, Revs. Prof. King, J. W. Madden and W. J. Walker were appeinted a committee to make arrangements for the or-dination. which was subsequently performed with the usual ceremonies.

PROTRACTED MEETING.—The attendance at the M. P. Church last night was as large as could have been well accommodated, and the interest in the protracted meeting that has been in progress there for some weeks past is in no wise abated. The sermon was preached by Rev. Mr. Valliant, of Georgetown, and six mourners were at the altar. The meeting will be protracted as long as the interest now manifested in it shall continue.

NIGHT TRAIN TO WASHINGTON .- Mr. Jos. W. White handed to Mr. Du Barry, superintendent of the Washington and Alexandria railroad, today, a numerously signed petition for a change in the hour at which the local night train leaves this city for Washington and was informed that during the early part of next week the train that now leaves Washington at 6:35 p. m. would leave at 6 p. m. and would leave Alexandria for

Washington at 7 p. m. Horse Disease.-Though none of the sequelae of the horse disease reported by telegraph yesterday as existing in New York has appeared among the sick horses in this city, the unfavorable weather prevailing induces most of the owners of the diseased animals to keep them stabled, and so but few teams, except those of men and oxen, are yet visible on the streets. SMALL Pox.—Happily the small pox still re-mains confined to the house in which it first made its appearance and the number of those attacked by it has no yet increased. One of the three cases reported yesterday, died last night, and another one is said to be in a very precarious condition .- Gazette, last evening.

BAILEGAD

Combined,

In its : Gold Bonds the Northern Pacific Re road Compan furnishes to the public an invest ment security which combines the ready negotibility, the convenience, and the high credit of a first-class railroad bond, with the solidity and safety of a real estate mortgage on land worth at le

twice the amount loaned. They are effered at par in currency, and yield a HANDSOME PROFIT to those exchanging 8-20s. The bonds are a first and only mortgage on the road, its equipments and earnings, and also on a land grant which, on the completion of the road, will average 25,000 acres to each mile of track.

They are issued in denominations from \$100 to \$1,000 Coupon, and \$100 to \$10,000 Engistered, have

thirty years to run, bear an interest of 7:30 per cent. In gold, and are EXEMPT FROM UNITED The semi-annual interest on the Begistered Bonds is paid with GOLD CHBOES, sent to the post office

address of the helder.
All marketable Stocks and Bonds received in exchange, without expense to the investor, at their highest current prices.

This is to give notice, that the subscriters of columbia, holding a Special Torm, letters of administration on the personal estate of SOPHIA M. W. WILSON, late of District of Columbia, deceased. All persons having claims against the mid deceased are hereby warned to exhibit the same, with the venchers thereof, to the subscriber, on or before the 2th day of October next; they may otherwise by law be excluded from all benefit of the said estate. Given under my hand this 29th day of October, 1872.
